

Attention Parents:

As we anticipate spring, we also anticipate the adventure of field trips for our students. If you have submitted medication to the health office for your child this school year, please be aware that only *emergency* medications (i.e.: epipens, allergy medications, inhalers, seizure medications) and *scheduled* medications will be sent on field trips with the teachers.

If your child has an over-the-counter medication (i.e.: ibuprofen, acetaminophen) in the health office, be advised that it will *not* be sent with the teacher for off-campus trips.

Please contact the health office if you have any questions or concerns.  
Thank you!
